Our Dear Brother Mayolo,
God's richest blessings to you in that name above all, our lord Jesus Christ.

We have been very blessed to get your response to the tapes on the *Love Life of A Believing One* it has blessed a lot of people here in the U.S. as well. I am very grateful to our brother, Celestin Mbanianga for the great work he is doing in translating the teachings to French.

I am also very happy to hear how the believing ones in France are continuing to get together around the Word of God. It is important to have other believers to share the Word, pray together and enjoy the blessings of life God so graciously poured forth to us. While I also understand the pressures of life that come upon us we must not forget the abundance of joy and blessings there are to live the Word together.

"Let not your heart be troubled, neither let it be afraid..." God has called us to live abundantly and we are never separated from His wonderful love. Our believing hearts for the saints in France is that you indeed prosper and rejoice in the glory of God.

You are in our prayer as well as our thoughts. Rejoice in the Lord and again I say rejoice.

Our love goes to all the believing ones with you.

Lovingly,
In Christ,
Larry and Connie
